Preface

Numbers and data are the most important information you can get from statistical studies. In addition to that, getting more accurate information would clearly show the size of achievements realized, without taking sides or bias.

*This report contains
statistical pointers*

reflecting the actual status of Iraq... depending on governmental reports from 2017 – 2020,
To be a digital reference for most of Iraqi people s concerns and a digital road map reflecting the country s real picture
